

Debugging spot the difference: Bubblesort

Solution

Line 1

The word void is missing.
The ; should be a ,

{ } should be []
int m should be int n

Line 3

The , should be ; (twice) < should be <=
p=0 should be p = 1

Line 5

int i should be int i=0
q should be p
F in for shouldn't be in capitals.

Line 7

Remove the ; from the end < should be >
Missing) at end

Line 9

S in Swap shouldn't be in capitals.
i+l should be i+1 (the number 1, not the letter l)
Missing ; from end

Line 13

Missing }
