

An even Halloween picture

Colour all the **EVEN** numbers black to find a hidden Halloween animal.

1	13	43	69	41	71	87	19	79	73	25	41	85	3	53	47	31	79	49	3	35	97	53	5

Computers are good at spotting even numbers - as they count using binary (they only use 1s and 0s). All even numbers end in 0 in binary!

0, 1, 2, 3, 4, 5, 6, 7
000, 001, 010, 011, 100, 101, 110, 111
