

An Odd-land Swamp Puzzle

In odd-land, solid ground is made of odd numbers (1, 3, 5, 7, 9 and so on).

Blue swampy ground is made of even numbers.

Colour the odd numbers to find a way through the swamp for the cat.

Computers are good at spotting odd numbers - as they count using binary (they only use 1s and 0s).

All odd numbers end in 1 in binary!

0, 1, 2, 3, 4, 5, 6, 7
000, 001, 010, 011, 100, 101, 110, 111
