Code Cracking Puzzle: Bacon not Turkey this Christmas

This Christmas see if you can decrypt the hidden message hidden in the traditional carol 'Silent Night':

```
siLEnt NighT
hoLY niGht
aLL Is caLm
all is brigHt
roUnd yon virgiN
motHER and chiLD
holy iNfanT so TENDER
AND MILD
SLEEP IN HEAVENLY PEACE
SLEEP IN HEAVENLY PEACE
```

See the hint sheet at https://teachinglondoncomputing.org/puzzles/bacon-not-turkey-at-christmas/ for details of the algorithm used to encrypt it. There is also more about it in issue 24 of cs4fn magazine on cybersecurity and privacy, where you can find out more about both steganography and cryptography.
