

# CODING, CREATIVITY AND COMPUTING SUMMER SCHOOL

JULY 2018

This summer the award-winning London Connected Learning Centre is opening its doors to children currently in years 4, 5 and 6 for a week-long summer school of fun creative computing activities.

By the end of the week your child will have gained confidence in using a range of technologies, developed new skills, discovered creative computing tools that they can continue exploring at home - and had a lot of fun in the process!

## ACTIVITIES ON OFFER WILL INCLUDE

- ✧ Animation
- ✧ Creative programming
- ✧ Digital music composition
- ✧ Game design

The activities will be led by our experienced team of teachers and assistants at London CLC's safe and welcoming space in Clapham, with full access to the wide range of up-to-date technology we have at our fingertips here.

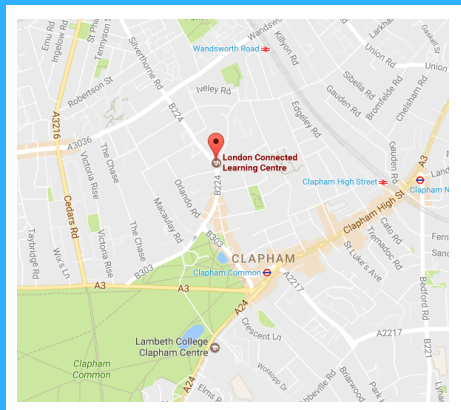

With places on the summer school limited to 20 children, every child will have the opportunity to explore the activities in depth, with expert support, and will end the week with a sense of real achievement.

# ABOUT LONDON CONNECTED LEARNING CENTRE

London Connected Learning Centre (London CLC) is an award-winning organisation that has worked with London schools for more than twenty years putting creativity at the heart of digital learning for young people, teachers and parents.

Our team is made up of expert teachers, computer science and online safety specialists, technicians, filmmakers, music technologists and designers.

## DATE, TIME AND PRICE

The summer school will run from 9am to 3pm, from Monday 30th July to Thursday 1st August and costs is £240 per child.
