Have students interested in cyber, but no funding to develop the cyber skills and knowledge required for a future career?

ISACA The London Chapter are looking to sponsor 50 London Pupil Premium Students to complete the Qufaro Headstart in Cyber Security.

As with most inner-city London schools, pupil premium is a major priority. It is essential to consider the moral focus on changing the life chances of disadvantaged young people. We need to break down the barriers faced and provide the tools to assist young people to reach their potential.

This is where *ISACA* and *Bletchley Park Qufaro* may be able to assist. Alongside the online Level 3 Headstart sponsorship programme, an online mentoring programme will also be available which is linked with *STEM Ambassadors*.

Students and teachers will also have access to webinars focusing on enthusing, inspiring, and supporting young people to have a career in cyber.

There are limited places, should you have any students interested in cyber and would like to receive sponsorship and mentoring, then why not join *Qufaro* and *ISACA* to have a chat with you, show you the online course and answer your questions. Please register on **eventbrite** to find out more.

We have two virtual sessions:

[Thursday 10th June 4-5pm](#)

[Thursday 24th June 4-5pm](#)

[Click here to find out more about Qufaro and the courses we offer.](#)

For further information email us at cyberepq@qufaro.uk or call 01908 101066.
