

# CS4FN

## Colour-in Easter hexaflexagon

1. Colour in (optional)
2. Cut round thick black line
3. Fold lengthwise  
(glue flat optional)
4. Fold / unfold all the triangles to make a concertina

5. Hold flexagon facing you with long line at bottom
6. Fold chick triangle forwards onto the carrot
7. Fold the 9-eggs triangle onto the 3-eggs one
8. Slide the logo triangle behind the striped egg
9. Don't glue but add a piece of sellotape at edge
- 10. Flex and fold to find the rabbit ☺**

What happens if you flip the flexagon again? Does the rabbit seem to move?
