

# Diversity in Computing & Public Engagement in EECS

Paul Curzon, Jane Waite and Jo Brodie

## Free posters

- Free posters illustrating the diversity of computer scientists.  
*An accompanying website offers teachers additional information about the featured people and suggests some classroom activities.*
- A brightly coloured set to highlight the different people and a muted palette for the everyday background.  
*These can be found on the walls of the Peter Landin building too.*

## CS4FN - free schools magazine

- New issue focusing on Diversity.  
~22,000 print copies sent to 2.4k subscribing UK schools. We are also creating new issues of 'A Bit of CS4FN', for primary schools  
*- funded by EPSRC on research agreement EP/W033615/1*

## PEEECS & PECS

- public engagement in EECS and beyond
- Embedding PE in the department  
*Part of Paul Curzon's EPSRC Award as an ICT Public Engagement Champion. We have a Teams Group (PEEECS), and also a public website and mailing list (PECS).*  
*- funded by EPSRC on research agreement EP/W033615/1*

### Public Engagement in Electronic Engineering and Computer Science

Public engagement with research is a vital part of any research project. The PEEECs project aims to give you snapshots of the kinds of activities that are possible, and point you at opportunities and support, specifically in the area of Computer Science and Electronic Engineering.
