

## Mousemat Maze Puzzle 3

Solve the maze and show the mouse the way to the cheese using the dead-end filling algorithm. It involves the following steps

REPEAT the following until there are no dead-ends left (other than the one with the cheese):

1. Find and mark with a cross a dead-end in the maze.
2. Fill the maze in from the dead-end to the first junction you reach, removing the dead-end.
